**wordbee**

**Wordbee Translator**

Web-based

Wordbee is the leading choice for enterprises and language service providers that need to save money and make their company run more efficiently. Wordbee has the most complete feature set of any cloud solution: project management, portal, business analytics, reporting, invoicing and a user-friendly translation editor. Tasks such as project and workflow setup, job assignment, deadline calculation, multiple phase kick-offs and cost management can be automated in the collaborative translation platform. Also, the Wordbee connects CMS, DAMS or any proprietary database source with the TMS of the translation vendor or internal translation team.
